THE
BIOLOGICAL BULLETIN

PUBLISHED BY
THE MARINE BIOLOGICAL LABORATORY

Editorial Board

JOHN B. BUCK, National Institutes of Health
JOHN O. CORLISS, University of Maryland
DONALD P. COSTELLO, Woods Hole, Massachusetts
JOHN D. COSTLOW, Duke University
PHILIP B. DUNHAM, Syracuse University
CATHERINE HENLEY, National Institutes of Health
GEORGE O. MACKIE, University of Victoria
HOWARD A. SCHNEIDERMAN, University of California, Irvine
RALPH I. SMITH, University of California, Berkeley
GROVER C. STEPHENS, University of California, Irvine
CARROLL M. WILLIAMS, Harvard University
EDWARD O. WILSON, Harvard University
W. D. RUSSELL-HUNTER, Syracuse University
Managing Editor

VOLUME 151
JULY TO DECEMBER, 1976

Printed and Issued by
LANCASTER PRESS, Inc.
PRINCE & LEMON STS.
LANCASTER, PA.

THE BIOLOGICAL BULLETIN is issued six times a year at the Lancaster Press, Inc., Prince and Lemon Streets, Lancaster, Pennsylvania.

Subscriptions and similar matter should be addressed to The Biological Bulletin, Marine Biological Laboratory, Woods Hole, Massachusetts. Agent for Great Britain: Wheldon and Wesley, Limited, 2, 3 and 4 Arthur Street, New Oxford Street, London, W. C. 2. Single numbers, $8.00. Subscription per volume (three issues), $22.00.

Communications relative to manuscripts should be sent to Dr. W. D. Russell-Hunter, Marine Biological Laboratory, Woods Hole, Massachusetts 02543 between June 1 and September 1, and to Dr. W. D. Russell-Hunter, P.O. Box 103, University Station, Syracuse, New York 13210, during the remainder of the year.

Second-class-postage paid at Lancaster, Pa.

LANCASTER PRESS, INC., LANCASTER, PA.

CONTENTS

No. 1, August, 1976

Annual Report of the Marine Biological Laboratory 1

Cooley, Lynn, Dana R. Crawford and Stephen H. Bishop
Urease from the lugworm, *Arenicola cristata* 96

Elvin, David W.
Seasonal growth and reproduction of an intertidal sponge *Haliclona permollis* (Bowerbank) 108

Forward, Richard B., Jr.
A shadow response in a larval crustacean 126

Gwilliam, G. F.
The mechanism of the shadow reflex in Cirripedia. III. Rhythmical patterned activity in central neurons and its modulation by shadows 141

Kahler, George A., Frank M. Fisher, Jr., and Ronald L. Sass
The chemical composition and mechanical properties of the hinge ligament in bivalve molluscs 161

Mackie, George O., C. L. Singla, and Catherine Thiriot-Quiévreux
Nervous control of ciliary activity in gastropod larvae 182

McLaren, Ian A.
Inheritance of demographic and production parameters in the marine copepod *Eurytemora herdmani* 200

Mills, Claudia E.
Podocoryne selena, a new species of hydroid from the Gulf of Mexico, and a comparison with *Hydractinia echinata* 214

Pardy, R. L.
The production of aposymbiotic hydra by the photodestruction of green hydra zoochlorellae 225

Sweeney, Beatrice M.
Circadian rhythms in corals, particularly Fungiidae 236

Timko, Patricia L.
Sand dollars as suspension feeders: a new description of feeding in *Dendraster excentricus* 247

Tweedell, Kenyon S.
Utilization of ^{3}H-thymidine triphosphate by developing stages of *Pectinaria gouldii* 260

No. 2, October, 1976

Ache, B. W., Z. M. Fuzessery, and W. E. S. Carr
Antennular chemosensitivity in the spiny lobster, *Panulirus argus:* comparative tests of high and low molecular weight stimulants 273

Chevone, Boris I. and A. Glenn Richards
Ultrastructure of the atypic muscles associated with terminalial inversion in male *Aedes aegypti* (L.) 283

FISHER, THOMAS R.
Oxygen uptake of the solitary tunicate *Styela plicata* 297
HARZA, T. AND LENKE MÁTYÁS
Seasonal variations of sodium and potassium concentrations in different parts of the frog myocardium 306
HERNANDORENA, A.
Effects of temperature on the nutritional requirements of *Artemia salina* (L.) 314
HUNTER, F. R.
Permeability of trout erythrocytes to nonelectrolytes 322
JØRGENSEN, C. BARKER
Comparative studies on the function of gills in suspension feeding bivalves, with special reference to effects of serotonin 331
LEVERSEE, GORDON J.
Flow and feeding in fan-shaped colonies of the gorgonian coral, *Leptogorgia* 344
NIMITZ, SR. M. AQUINAS
Histochemical changes in gonadal nutrient reserves correlated with nutrition in the sea stars, *Pisaster ochraceus* and *Patiria miniata* 357
SCHULTZ, T. WAYNE AND JOHN R. KENNEDY
Cytotoxic effects of the herbicide 3-amino-1,2,4-triazole on *Daphina pulex* (Crustacea: Cladocera) 370
THOMAS, J. D., M. POWLES, AND R. LODGE
The chemical ecology of *Biomphalaria glabrata:* the effects of ammonia on the growth rate of juvenile snails 386
ABSTRACTS OF PAPERS PRESENTED AT THE MARINE BIOLOGICAL LABORATORY 398

No. 3, DECEMBER, 1976

ANDERSON, O. ROGER AND ALLAN W. H. BÉ
A cytochemical fine structure study of phagotrophy in a planktonic foraminifer, *Hastigerina pelagica* (d'Orbigny) 437
DURAND, JACQUES P.
Ocular development and involution in the European cave salamander, *Proteus anguinus* Laurenti 450
DURLIAT, MICHELE AND ROGER VRANCKX
Coagulation in the crayfish, *Astacus leptodactylus:* attempts to identify a fibrinogen-like factor in the hemolymph 467
HOFFMANN, RICHARD J.
Genetics and asexual reproduction of the sea anemone *Metridium senile* 478
JENNINGS, J. B. AND S. R. GELDER
Observations on the feeding mechanism, diet and digestive physiology of *Histriobdella homari* van Beneden 1858: an aberrant polychaete symbiotic with North American and European lobsters 489
KASTENDIEK, JON
Behavior of the sea pansy *Renilla kollikeri* Pfeffer (Coelenterata: Pennatulacea) and its influence on the distribution and biological interactions of the species 518

McCarthy, J. F., A. N. Sastry and G. C. Tremblay
Thermal compensation in protein and RNA synthesis during the intermolt cycle of the American lobster, *Homarus americanus* 538
Mitton, Jeffry B. and Richard K. Koehn
Morphological adaptation to thermal stress in a marine fish, *Fundulus heteroclitus* 548
Oguro, Chitaru, Miéko Komatsu and Yasuo T. Kano
Development and metamorphosis of the sea star, *Astropecten scoparius* Valenciennes 560
Ruby, E. G. and K. H. Nealson
Symbiotic association of *Photobacterium fischeri* with the marine luminous fish *Monocentris japonica:* a model of symbiosis based on bacterial studies 574
Smith, Ralph I.
Exchanges of sodium and chloride at low salinities by *Nereis diversicolor* (Annelida, Polychaeta) 587
Turgeon, Kenneth W.
Osmotic adjustment in an estuarine population of *Urosalpinx cinerea* (Say, 1822) (Muricidae, Gastropoda) 601
Index to Volume 151 615

INDEX

A

Acanthina spirata, embryos of, 491
Acetylcholine, and gamete-release, in sea cucumbers, 402
Acid-base regulation, in *Limulus,* 453
Adaptations to oxygen minimum layer, 15
Adsorption, of lead in phytoplankton, 118
Agglutination, in lorica development, 377
Agression, in stomatopod crustacea, 468
  in sea anemone clones, 361
Algal diets, effect on growth of *Conopeum,* 318
Amino acids, *Modiolus demissus,* 1
Ammonia excretion rates, 1
Amphipods, egg development in, 286
  as food of nemerteans, 57
Amphiporus ochraceus, food and feeding, 57
Anderson, P. A. V. The electrophysiology of the organ-pipe coral, *Tubipora musica,* 337
Anthopleura elegantissima, social organization in, 361
Anthozoa, order Stolonifera, electrophysiology, 337
Arenaceous appearance, of lorica, 377
Ascidians, blood of, 426
Aurelia aurita, MDH isozymes of, 268

B

Balanus amphitrite, cement secretion in, 47
Balanus eburneus, cement secretion in, 47
Barnacles, larval development, 255
  cement secretion in, 47
Bartberger, C. A. and S. K. Pierce, Jr. Relationship between ammonia excretion rates and hemolymph nitrogenous compounds of a euryhaline bivalve during low salinity acclimation, 1
Bathypelagic mysids, circulation in, 15
Behavior, colonial, in corals, 337
  larval, in *Cyanea capillata,* 183
Belman, B. W. and J. J. Childress. Circulatory adaptations to the oxygen minimum layer in the bathypelagic mysid *Gnathophausia ingens,* 15
Berlind, A. See R. I. Hume, 241
Biosynthesis, of ecdysone, in prothoracic glands, 500
Bishop, J. M. and W. F. Herrnkind. Burying and molting of pink shrimp, *Penaeus duorarum* (Crustacea: Penaeidae), under selected photoperiods of white light and UV-light, 163
Bivalve larvae, development of, 348
Blood, of *Ascidia nigra,* 426
  cell frequency distribution, in *Ascidia nigra,* 426
  circulatory system, in *G. ingens,* 15
  pressure relationships, in *G. ingens,* 15
Booth, C. E. See C. P. Mangum, 453
Brachyurans, cheliped laterality in, 393
Brewer, R. H. Larval settling behavior in *Cyanea capillata* (Cnidaria: Scyphozoa), 183
Brooding behavior, in *Cribrinopsis fernaldi,* 128
Bucephalid trematodes, life cycles of, 294
Burying behavior, in shrimp, 163
Busycon canaliculatum, lipid components in cartilage of, 69

C

Callinectes sapidus, barnacle attachment to, 255
  cheliped laterality in, 393
Carcinus maenas, heart rate in, 241
Cardiac response, in crabs, 241
Cartilage, invertebrate, 69
Cement secretion, in barnacles, 47
Cephalopod, laboratory maintenance, 279
Cheliped laterality, in *Callinectes sapidus,* 393
Childress, J. J. See B. W. Belman, 15
Chloride and osmotic balance, in sipunculids, 211
Chrysaora quinquecirrha, MDH isozymes of, 268
Ciliates, lorica development in, 377
Circulation, in bathypelagic mysids, 15
Circulatory physiology, of *G. ingens,* 15
Cirripedia, cement secretion in, 47
  larval development in, 255
Clonal aggregation, in sea anemones, 361
Coelenterate social organization, 361
Colonial organization, of corals, 337
Colony growth, in *Conopeum,* 318
Conopeum tenuissimum, culture of, 318
Cooperation and competition, in sea anemone clones, 361
Copepods, naupliar development in, 38
Corals, electrophysiology of, 337
Corophium acherusicum, prey of nemerteans, 57
Corophium triaenonyx, development of eggs in, 286
Costlow, J. D. See U. E. H. Fyhn, 47
Coull, B. C. and B. W. Dudley. Delayed

naupliar development of meiobenthic copepods, 38
Crab, heart rate in dilute medium, 241
molting and regeneration in, 222
Crangon septemspinosa, nutrition in, 522
Cribrinopsis fernaldi, sp. nov., description of, 128
Crustacea, hydration in shrimp, 522
molt cycle in, 222
heart rate changes in, 241
Culture, of *Conopeum tenuissimum,* 318
CURBY, W. A. See K. Kustin, 426
Cyanea capillata, larval settling behavior, 183
MDH isozymes of, 268
Cyprid settlement, of *Octolasmis mülleri,* 255

D

Decerebrate feeding, in flatworms, 411
DEFUR, P. L. See C. P. Mangum, 453
DESCHWEINITZ, E. H. AND R. A. LUTZ. Larval development of the northern horse mussel *Modiolus modiolus* (L.), including a comparison with the larvae of *Mytilus edulis* L. as an aid in planktonic identification, 348
Development, delayed in copepods, 38
in *Cribrinopsis fernaldi,* 128
Diet, effect on growth of *Conopeum,* 318
in nemerteans, 80
and hydration, in *Crangon septemspinosa,* 522
DNA synthesis, in crabs, 222
Doryteuthis bleekeri, transportation and maintenance of, 279
d-Tubocurarine, and gamete-release in sea cucumbers, 402
DUDLEY, B. W. See B. C. Coull, 38
DUNN, D. F. See J. P. Green, 211

E

Ecdysis, in crabs, 222
in *Crangon septemspinosa,* 522
Ecdysone, secretion of, in prothoracic glands, 500
Ecology, of *Crangon septemspinosa,* 522
of *Cyanea capillata,* 183
Ectoprocts, food utilization of, 318
Egg development, in amphipods, 286
Electronic configuration, of vanadium, in blood cells of *Ascidia nigra,* 426
Electrophoresis, MDH isozyme patterns in scyphozoan jellyfish, 268
Electrophysiology, of *Hydra,* 442
of *Tubipora musica,* 337
of Turbellaria, 411
Embryonic development, prosobranch, 491
Encystment, in *Cyanea capillata,* 183
Endoskeleton, invertebrate, 69
Environment and fiddler crabs, 152
Eudistylia polymorpha, lipid components in cartilage of, 69
Euryhaline bivalves, salinity acclimation in, 1

F

Feeding, in flatworms, 411
nemertean, 57, 80
FELL, P. E. The reproduction of *Haliclona loosanoffi* and its apparent relationship to water temperature, 200
Fiddler crabs, regeneration and molting in, 152
Filtration and squid maintenance, 279
FRANCIS, L. Social organization within clones of the sea anemone *Anthopleura elegantissima,* 361
FYHN, U. E. H. AND J. D. COSTLOW. A histochemical study of cement secretion during the intermolt cycle in barnacles, 47

G

Gamete-release, in *Leptosynapta inhaerens,* 402
Gecarcinus lateralis, molting and regeneration in, 222
Gnathophausia ingens, circulation in, 15
GOLD, K. AND E. A. MORALES. Studies on the sizes, shapes, and the development of the lorica of agglutinated Tintinnida, 377
Gonadal muscular contraction, in sea cucumbers, 402
GREEN, J. P. AND D. F. DUNN. Chloride and osmotic balance in the euryhaline sipunculid *Phascolosoma arcuatum* from a Malaysian mangrove swamp, 211
Growth, of *Conopeum,* 318
and photoperiod, in shrimp, 163
patterns and regeneration, in crabs, 222
rates, *Salmo gairdneri,* 139

H

Haliclona loosanoffi, reproduction in, 200
HALUSKY, J. G. See P. V. Hamilton, 393
HAMILTON, P. V., R. T. NISHIMOTO AND J. G. HALUSKY. Cheliped laterality in *Callinectes sapidus* (Crustacea: Portunidae), 393
Hatching size, in prosobranch embryos, 491
Heart rate, changes in crab, 241
HECKEL, N. A. See C. P. Mangum, 453
Hemocyanin and salinity in Limulus, 453
Hemolymph nitrogenous compounds, 1
HENRY, R. P. See C. P. Mangum, 453
HERRNKIND, W. F. See J. M. Bishop, 163
Histochemical study, barnacles, cement secretion, 47
HOLLAND, C. A. AND D. M. SKINNER. Inter-

actions between molting and regeneration in the land crab, *222*
Holothuroidea, gamete-release, 402
Hoplonemertea, food and feeding, 57
HUME, R. I. AND A. BERLIND. Heart and scaphognathite rate changes in a euryhaline crab, *Carcinus maenas*, exposed to dilute environmental medium, 241
Hydra, effect of urethan on, 442
Hydration, in *Crangon septemspinosa*, 522

I

IKEGAMI, S., H. KANATANI AND S. S. KOIDE. Gamete-release by 1-methyladenine *in vitro* in the sea cucumber, *Leptosynapta inhaerens*, 402
Indeterminate growth, in sea anemone clones, 361
Intermediate hosts, of bucephalid trematodes, 294
Intermolt cycles, in barnacles, 47

J

JEFFRIES, H. P. See J. R. Wilcox, 522
Jellyfish, MDH isozymes of, 268

K

KANATANI, H. See S. Ikegami, 402
Kinship selection, in sea anemones, 361
KOIDE, S. S. See S. Ikegami, 402
KOOPOWITZ, H., D. SILVER, AND G. ROSE. Primitive nervous systems. Control and recovery of feeding behavior in the polyclad flatworm, *Notoplana acticola*, 411
K-strategy, and population growth forms, 38
KUSTIN, K., D. S. LEVINE, G. C. MCLEOD, AND W. A. CURBY. The blood of *Ascidia nigra:* blood cell frequency distribution, morphology, and the distribution and valence of vanadium in living blood cells, 426

L

Laboratory maintenance of squid, 279
LANG, W. H. The larval development and metamorphosis of the pedunculate barnacle *Octolasmis mülleri* (Coker, 1902) reared in the laboratory, 255
Larvae, of *Octolasmis mülleri*, 255
Larval development, in *Cribrinopsis fernaldi*, 128
in *Octolasmis mülleri*, 255
Larval responses, in *Cyanea capillata*, 183
Larval settlement, in *Haliclona loosanoffi*, 200
Larval stages, of bucephalid trematodes, 294
of *Modiolus modiolus*, 348
Lead uptake, in phytoplankton, 118
Lepidoptera, ecdysone secretion by prothoracic glands, 500
Leptosynapta inhaerens, gamete-release in, 402
LEVINE, D. S. See K. Kustin, 426
LEWIN, R. A. See M. Schulz-Baldes, 118
Life history, of bucephalid trematodes, 294
of *Cribrinopsis fernaldi*, 128
of *Cyanea capillata*, 183
of *Paranemertes peregrina*, 80
Limulus polyphemus, hemocyanin and salinity in, 453
lipid components in cartilage of, 69
LIN, A. L. AND P. L. ZUBKOFF. Malate dehydrogenase isozymes of different stages of Chesapeake Bay jellyfish, 268
Lipid, in invertebrate cartilage, 69
LIPSON, R. See J. L. Rabinowitz, 69
Loricae, size, shape and development, 377
of agglutinated Tintinnida, 377
LUTZ, R. A. See E. H. de Schweinitz, 348

M

MACKLIN, M. The effect of urethan on Hydra, 442
Maintenance of squid, in laboratory, 279
MANGUM, C. P., C. E. BOOTH, P. L. DEFUR, N. A. HECKEL, R. P. HENRY, L. C. OGLESBY, AND G. POLITES. The ionic environment of hemocyanin in *Limulus polyphemus*, 453
MATSUMOTO, G. Transportation and maintenance of adult squid (*Dorytcuthis bleekeri*) for physiological studies, 279
MCDERMOTT, J. J. Observations on the food and feeding behavior of estuarine nemertean worms belonging to the order Hoplonemertea, 57
MCLEOD, G. C. See K. Kustin, 426
MDH isozymes of scyphozoans, 268
MDH, mitochondrial, 268
Meiobenthic copepods, naupliar development in, 38
Metacercariae, of bucephalid trematodes, 294
Metamorphosis, in *Octolasmis mülleri*, 255
1-methyladenine, and gamete-release, in sea cucumbers, 402
Mineralization, *in vitro*, in invertebrate cartilages, 69
Mineral particles, accumulation by marine protozoa, 377
Modiolus demissus, salinity acclimation in, 1
Modiolus modiolus, larval development in, 348
Molluscan larvae, development of, 348
Molting, in fiddler crabs, 152
and photoperiods, shrimp, 163
and regeneration, in crabs, *222*
rhythms, in crustacea, 468
Monema flavescens, prothoracic glands of, 500

Morales, E. A. See K. Gold, 377
Morphology, of blood in *Ascidia nigra*, 426
of body parts, in *Callinectes sapidus*, 393
Multiple autotomy and regeneration, in fiddler crabs, 152
Mussel larvae, development of, 348
Mytilus edulis, larvae of, 348

N

Nauplius, development, copepods, 38
of *Octolasmis mülleri*, 255
Nemertean, life and prey of, 80
Nervous system, and feeding in flatworms, 411
Neurophysiology, of flatworms, 411
of *Hydra*, 442
of *Tubipora*, 337
Nishimoto, R. T. See P. V. Hamilton, 393
Nitrogen metabolism, in trout, 139
Notoplana acticola, feeding in, 411
Nurse eggs and hatching size, in prosobranch embryos, 491
Nutrition, in *Crangon septemspinosa*, 522

O

Octolasmis mülleri, larval development in, 255
Oglesby, L. C. See C. P. Mangum, 453
Osmoregulation, in *Limulus*, 453
in sipunculids, 211
in *Hydra*, 442
Oxygen minimum layer and *G. ingens*, 15
Oxygen transport, in *Limulus*, 453

P

Paranemertes peregrina, life history of, 80
Pelecypod larvae, development of, 348
Penaeus duorarum, molting in, 163
Periodicity, lunar and tidal, in crustacea, 468
Person, P. See J. L. Rabinowitz, 69
Phaeodactylum tricornutum, lead uptake in, 118
Phascolosoma arcuatum, osmotic balance in, 211
Photoperiods and shrimp molting, 163
Physiology, of *Crangon septemspinosa*, 522
Phytoplankton, lead uptake in, 118
Pierce, S. K., Jr. See C. A. Bartberger, 1
Plankton identification, 348
Planula, of *Cyanea capillata*, 183
Plasma characteristics, of *Ascidia nigra* blood, 426
Platyhelminthes, feeding in, 411
Platymonas subcordiformis, lead uptake in, 118
Polites, G. See C. P. Mangum, 453
Pollution and phytoplankton, 118
Polychaetes, as prey of nemerteans, 80
Polyp retraction, in *Tubipora musica*, 337
Population life history, of nemerteans, 80
Predator-prey interactions, in nemerteans, 80
Prefertilization oocytes and X-rays, in mice, 107
Prosobranch embryos, nurse eggs and hatching size of, 491
Prothoracic glands, of *Monema flavescens*, 500
Protozoa, lorica development in, 377

R

Rabinowitz, J. L., C. J. Tavares, R. Lipson and P. Person. Lipid components and *in vitro* mineralization of some invertebrate cartilages, 69
Reaka, M. L. Lunar and tidal periodicity of molting and reproduction in stomatopod crustacea: a selfish herd hypothesis, 468

X

X-rays and prefertilization oocytes, in mice, 107

Z

Zooid nerve net, in corals, 337
ZUBKOFF, P. L. See A. L. Lin, 268
Zygonemertes virescens, food and feeding, 57

INDEX

A

Abdominal rotation, in mosquito, 283

ABERCROMBIE, R. AND P. DE WEER. The electric current generated by the sodium pump of squid giant axon: effects of external potassium and internal ADP, 398

Absorption kinetics of gut, in *Opsanus tau,* 399

Acclimation, and molting, in lobsters, 538

Acetylcholine bioassay, in frog sartorius nerve-muscle, 417

ACHE, B. W., Z. M. FUZESSERY AND W. E. S. CARR. Antennular chemosensitivity in the spiny lobster, *Panulirus argus:* comparative tests of high and low molecular weight stimulants, 273

Actin-binding protein, in chicken smooth muscle, 409

Actin localization, by meromyosin and fluorescence microscopy, 413

Adaptation, in sea anemones, 478
to thermal stress, in *Fundulus,* 548

Adrenalin, effect on teleost melanophore innervation, 414

Adrenergic vesicles, 428

Aedes aegypti, terminalial inversion in, 283

Aequipecten irradians, hinge ligament in, 161

Afferent activity, in toadfish labyrinth, 414

Age of maturity, heritability of, in *Eurytemora herdmani,* 200

Albumin, effect on synaptic transmission at frog sartorius neuromuscular junction, 430
requirements, and temperature, in *Artemia,* 314

ALLEN, N. S., R. D. ALLEN AND T. E. REINHART. Confirmed: the existence of abundant endoplasmic filaments in *Nitella,* 398

ALLEN, R. D. See N. S. Allen, 398

Allozymes, in *Modiolus demissus,* 404

Amino acids, action of osmium tetroxide on, 418

Amino acid analysis, of bivalve ligament and shell protein, 161

Amino-triazole, cytotoxicity of, 370

Amitrole, cytotoxic effects on *Daphnia,* 370

Ammonia, effects on growth rate, in snails, 386
and urease, in lugworm, 96

AMP requirements, and temperature, in *Artemia,* 314

Amphibian oocytes, maturational changes in, 429

Anacystis nidulans, phycobiliproteins in, 405

ANDERSON, O. R. AND A. W. H. BÉ. A cytochemical fine structure study of phagotrophy in a planktonic foraminifer, *Hastigerina pelagica* (d'Orbigny), 437

Anglerfish islets, somatostatin biosynthesis in, 422

Annelida, sodium and chloride exchange in, 587

Anomia achaeus, function of gills in, 331

Antarctic cod, plasma protein synthesis in, 414

Anthozoa, genetics and asexual reproduction in, 478

Aphidicolin, effects on sea urchin embryos, 419

Aposymbiotic hydra, production of, 225

Arbacia, fertilization protease of, 406
histone genes, ultrastructure of, 435
micromeres from, 427
nicotinamide-induced cleavage arrest in, 416

Arbacia eggs, and embryos, mRNA in, 410
fertilization membrane, effects of procaine and tetracaine on, 412

Arbacia embryos, echinochrome oxidation in, 423
effect of aphidicolin on, 419
repetitive sequences in, RNA of, 410

Arenicola cristata, urease from, 96

ARMSTRONG, P. B. Interaction of motile blood cells of *Limulus in vitro,* 399

Arsenazo III, fusion of lipid vesicles using, 407

Artemia, as food for foraminifera, 437
effects of temperature on nutrition in, 314

Ascidian embryos, melanogenesis in, 434

Astacus leptodactylus, hemolymph coagulation in, 467

Astropecten scoparius, metamorphosis and development in, 560

ATP-ase, in synaptic vesicles of frog sartorius neuromuscular junction, 426

Atypic muscles, associated with terminalia rotation, in mosquitoes, 283

Axon, squid, voltage clamp currents from, 430
and Fourier transform, 425

Ultrastructure, of *Astropecten scoparius*, 560
of *Daphnia*, 370
of foraminifera, 437
of histone genes, in sea urchin, 435
of *Histriobdella homari*, 489
of hydrozoans, 214
of mouse eggs, 435
of muscles, in *Aedes aegypti*, 283
of *Nitella* endoplasmic filaments, 398
of postsynaptic membrane of frog muscle after collagenase digestion, 430
of Schwann cell sheath, in giant axon, 402
Ulva, diurnal variation of photosynthesis in, 420
Uptake, of oxygen, in *Styela plicata*, 297
Urea, permeability of trout erythrocytes to, 322
Urease, from lugworm, 96
Urosalpinx, osmotic adjustment in, 601

V

Veliger larvae, ciliary activity in, 182
Venom, brown widow spider, in synaptic vesicles of frog muscle, 406
Vesicles, adrenergic, 428
Voltage clamp currents, from squid giant axons, 430
VRANCKX, R. See M. Durliat, 467
